EDUCATION

UNIVERSITY OF SOUTHAMPTON

PhD in Machine Intelligence for Nano-Electronic Devices and Systems

United Kingdom
Sept 2021 - present

NATIONAL UNIVERSITY OF SINGAPORE

B.Sc (Hons) in Data Science and Analytics

Singapore
Aug 2016 - Jun 2020

DELFT UNIVERSITY OF TECHNOLOGY

Student Exchange Program (SEP) at Faculty of Electrical Engineering, Mathematics and Computer Science

the Netherlands
Feb 2019 - Jul 2019

WORK EXPERIENCE

DELOITTE

Data Scientist

Singapore
Oct 2020 - Sep 2021

- Researched, surveyed and presented data-centric methods and solutions for financial crime and fraud detection
- Designed and built interactive dashboards for trade breaks and derived insights and recommendations to reduce them for a Singapore FinTech firm
- Worked on using machine learning to detect and analyze malicious network traffic data for a major telecommunication company in Indonesia

ROLLS-ROYCE SINGAPORE PTE LTD

Future Intelligence Technologies Intern

Singapore
Jan 2020 - May 2020

- Contributed to the submission of a paper for Elsevier Knowledge-Based Systems by designing, conducting experiments and analyzing the results to compare feature selection and gradient boosting methods
- Researched existing explainable AI methods that can be implemented for engineering purposes
- Worked on integrating trust scores with Individual Conditional Expectation plots for machine learning models to determine the confidence and trust of predictions for specific instances

DAVINCI INNOVATION LABS

Programming Instructor

Singapore
May 2018 - Jul 2018

- Taught primary school children programming skills in Python with robots

SKILLS

- **Programming Languages:** R, Python, SAS, SPSS, MATLAB, Java, SQL, Tableau
- **Languages:** English (Proficient), Chinese (Proficient), French (Basic)
